
Internet Cable Streaming Service Provider

Bundling and discounting

Sean Bryson, Patterson Altman, Disha Patel,
Jalamang Janka

Bundling services

Our goal with this API was to provide a the option for users to order multiple services directly from us and bundle them all together for a total discounted price

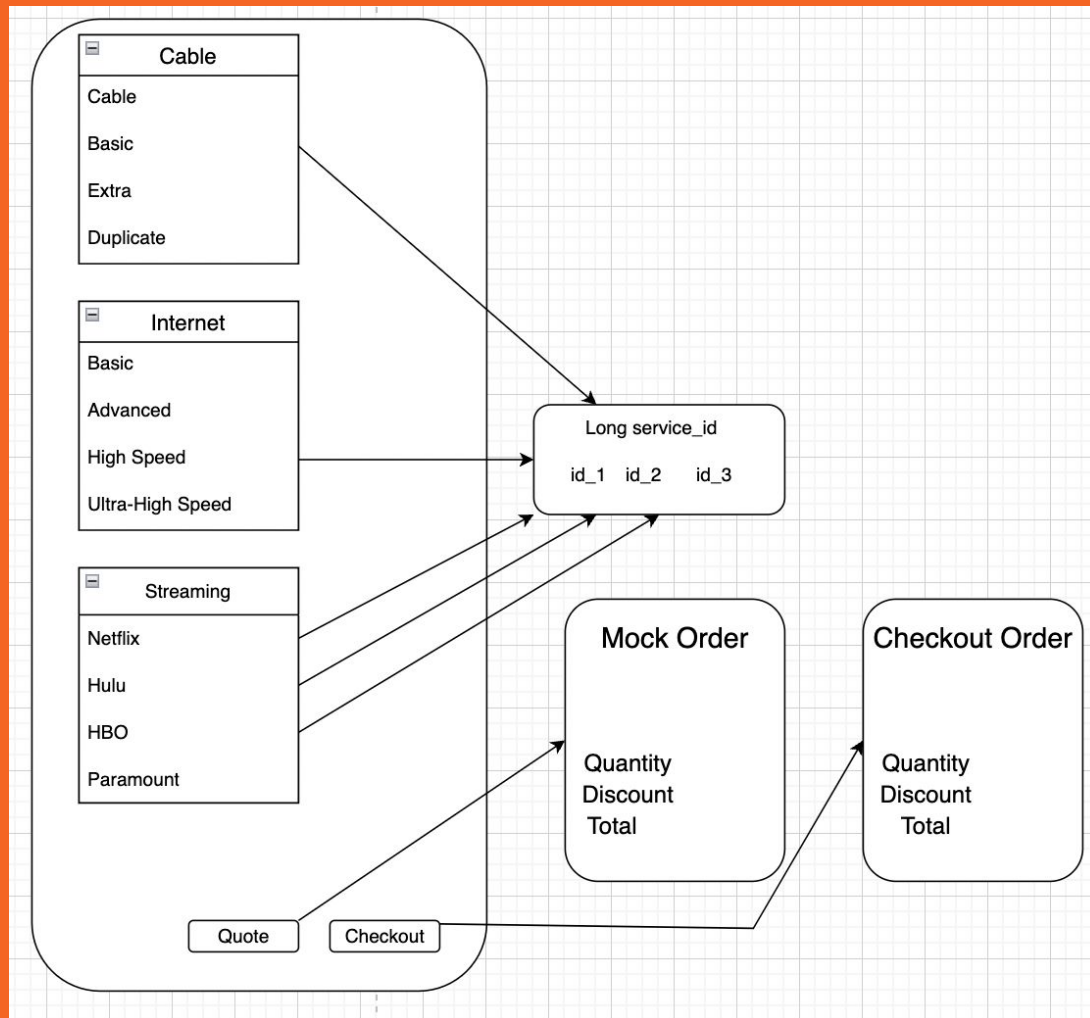

Achievements

- Backend API
- Preliminary front end
- Login
- Registration
- Create purchase and total order via back end
- Supply discount percentage and undiscounted total to front end

Road blocks

- Front end to back end communication for purchase and order creation
- Technical issues with loading front end

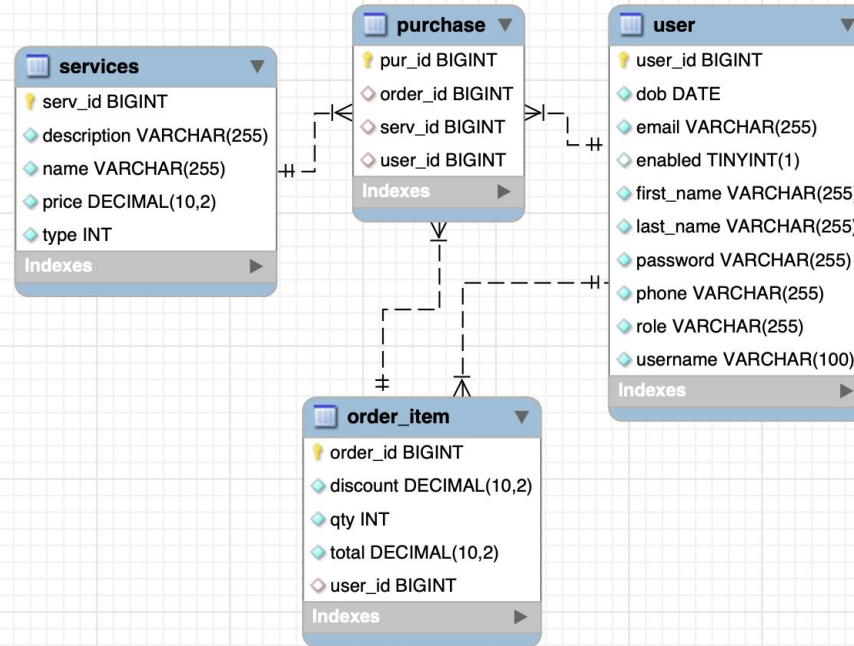

Connection Mock Up

For next sprint

- Solve communication issues for front and back end
- More Unit testing
- Deploy to AWS
